

rollflex public session

Roll-to-roll fabrication of solar cells and OLEDs

at the New Energy Husum 2019 Fair

PROGRAMME

- 11:15** **Introduction to the session**
Prof. Dr. Martina Gerken
Faculty of Engineering, Kiel University, Kiel
- 11:20** **Flexible organic solar cells from roll-to-roll technology**
Dr. Morten Madsen
Mads Clausen Institute, University of Southern Denmark, Sønderborg
- 11:35** **Roll-to-roll in-line metallization**
Dr. Lars Lindvold
Stensborg A/S, Roskilde
- 11:50** **Flexible organic light emitting diodes**
Dr. Yolande Murat
Faculty of Engineering, Kiel University, Kiel
- 12:05** **ZnO scattering particles and roll-to-roll fabrication**
Dr. Ala Cojocar
Phi-Stone AG, Kiel
- 12:20** **Hands-on demonstration of solar cells and organic light emitting diodes (OLEDs)**
RollFlex Innovation Center with discussions in English, German and Danish
- 12:45** **End**
